## In Case You Missed It

### Education Day Wrap-up!

Our fifth annual Education Day was bursting with opportunities for collaborative learning, networking, and recognition for our outstanding educators! Dr. Kevin Eva facilitated an informative [keynote](#) on using self-regulation to identify ways we can facilitate development of insight into knowledge and skill sets, for ourselves and learners, and practical ways these practices might shift the culture for enhanced professional practice. TEACH members from across the organization came together for our Posters, Recognition, and Awards Reception to share their education research through [23 scholarly posters](#) and one selected [oral presentation](#). Additionally, five amazing faculty members were recognized for their achievements in teaching with the [2019 TEACH Awards](#). To see what you missed or to revisit presentations from the day, visit our [TEACH website](#). As always, we thank you all for participating. Your contributions to this academy and our greater learning community are integral in our success.
