

WELCOME
THSS Cohort Session 3

January 9, 2023

TEACH Health Systems Science Cohort

Project Deliverables

TEACH Team

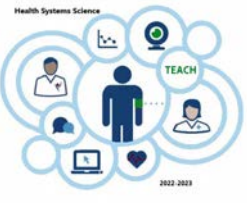

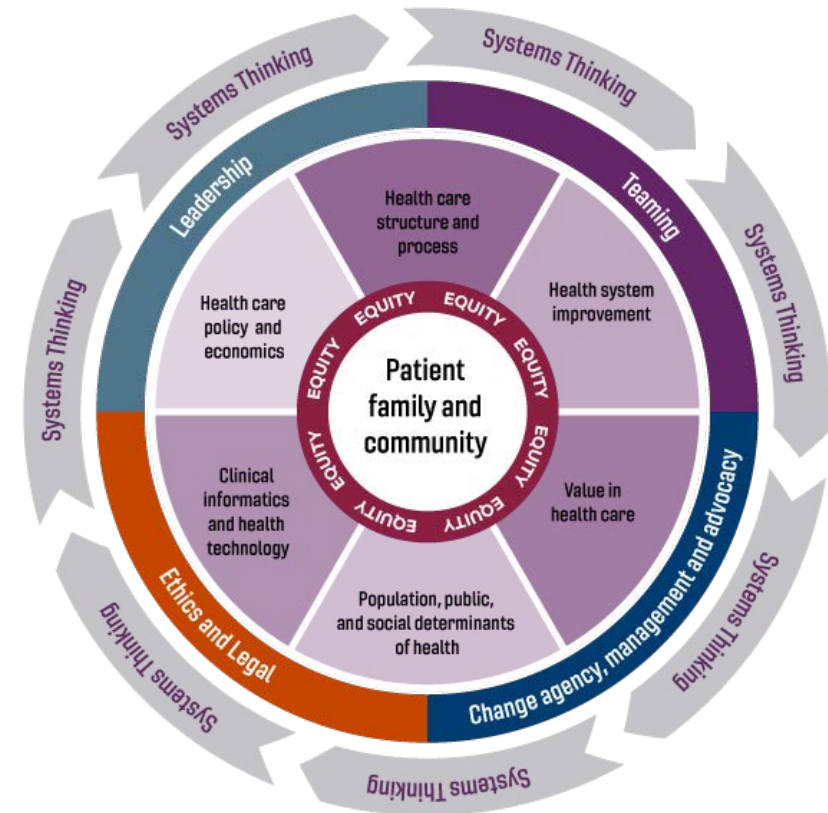

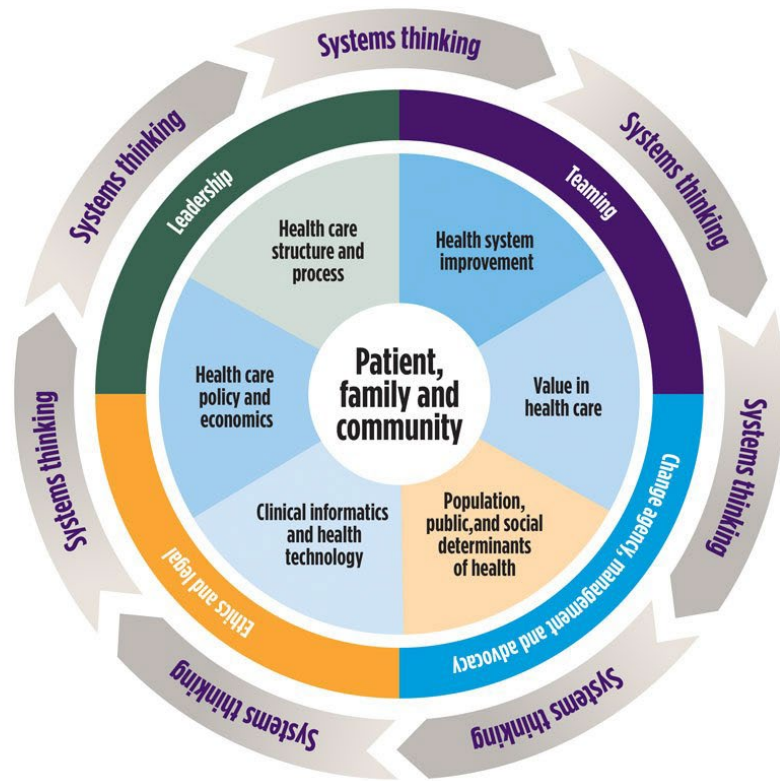

Cohort Deliverable

THSS participants will demonstrate increased familiarization with, and understanding of, health systems science core content by developing either:

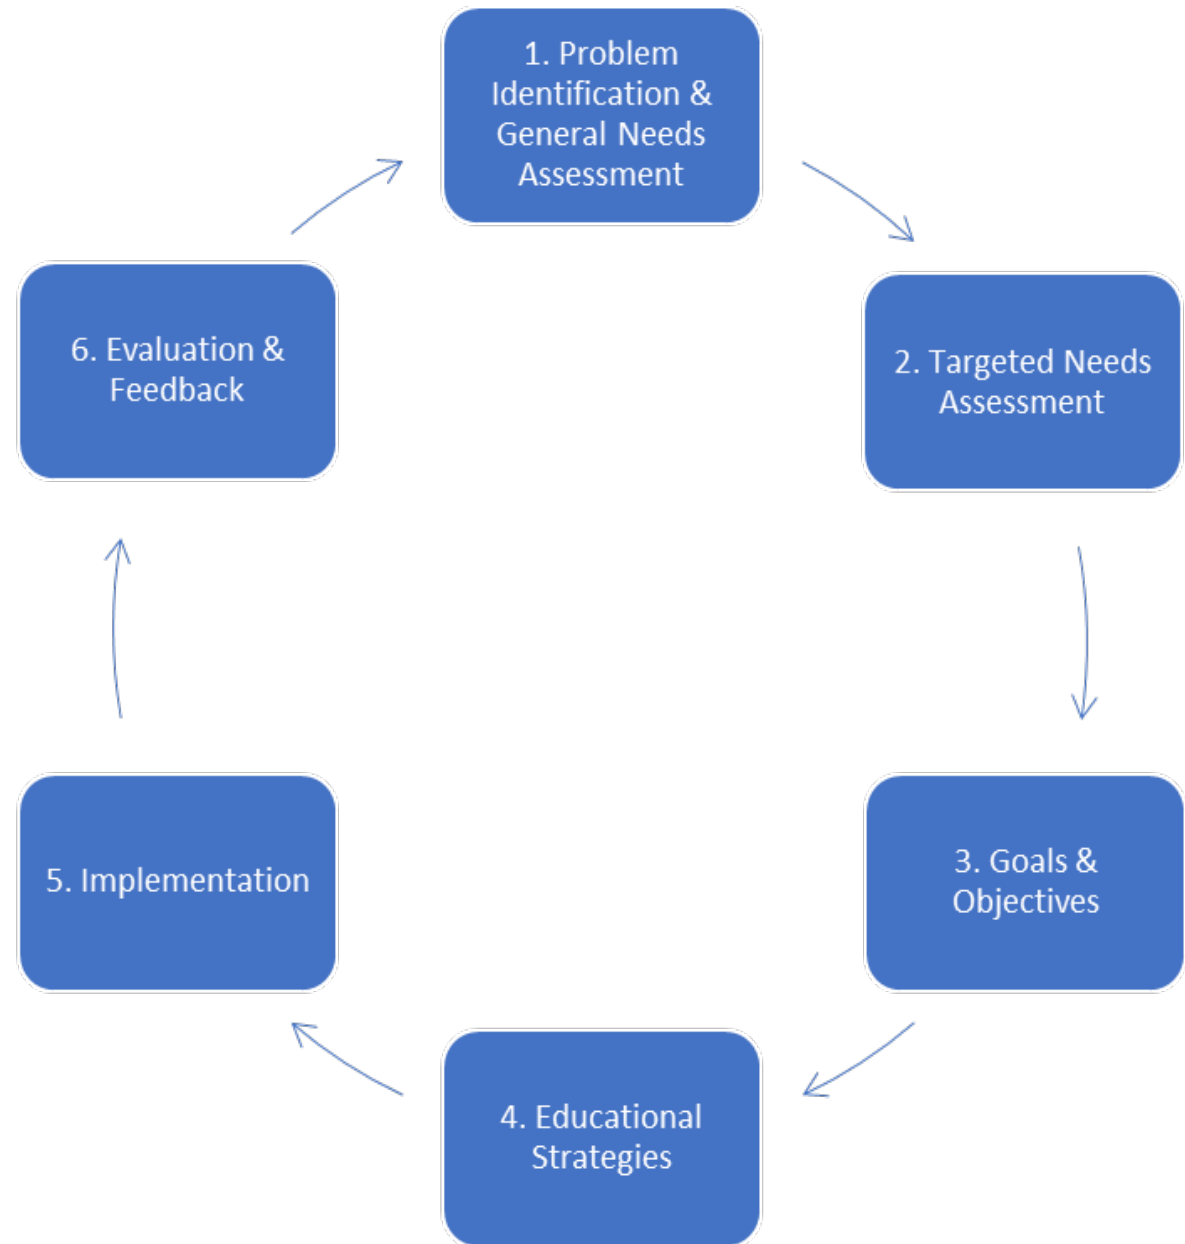

- a structured Quality Improvement solution, drawing upon best practices in integrating HSS concepts and processes, to address a departmentally focused problem impacting our healthcare system.
- a scholarly project designed to provide the information needed to bring a clearer understanding of an existing or potential problem impacting our healthcare system; or,
- learning modules/sessions, focused on an area of HSS interest to be presented to their colleagues.

Health Systems Science

Kern's Six Step Approach

Thomas, P.A., Kern, D.E., Hughes, M.T., & Chen, B.Y. (Eds).
Curriculum development for medical education: A six step approach (3rd ed.). Johns Hopkins.

Step 1

Problem Identification
and Needs Assessment

Brainstorming Problem Identification

[What is the problem \(in form of question\)?
\(padlet.com\)](https://www.padlet.com/)

Characterizing the Problem

- Whom does the problem affect?

- What does the problem affect?

- What is the quantitative and qualitative importance of the effects?
